## Manual labelling - “Quality - Made in Germany”

### Labeler premium

For over 30 years **contact** labelers have been valued worldwide for their quality and reliability. We present the latest generation of professional product labelling which unites all attributes of a modern labeler in itself.

We have succeeded to combine modern, attractive design with maximum ease of handling, ergonomics, efficiency and superior technology and thus to introduce the new **premium**-class of manual labelling.

The **contact - premium** series was created with special care, precision and the highest quality - Made in Germany!

### Labels for manual labelers

**contact** labels are made to fit manual labelers precisely for imprinting labels or dispensing them in a conventional manner.

Pre-cuts for transport in the backing paper ensure an accurate feeding of the labels. Labels for manual labelers are indispensable for many applications in industry and commerce even in the age of electronic printing and data collection.

Numerous label formats, also suitable for labelers of other manufacturers, are available to **contact**-clients for individual design options such as advertising on labels or as a „business card“.

The labels manufactured by the flexographic printing are available with many different adhesives for various demands of adherence.

## Are you looking for the premium option for your labelling?

Our labelers are manufactured with extra care, precision and to high quality standards and have established themselves worldwide as Made in Germany quality products for pricing and labelling. Our many patents testify to the superior technology of our durable, sturdy, light and cost-effective modular design. This ensures an ergonomic, user-friendly product which permits effortless and fast handling and maximum legibility.

See for yourself the benefits of the new **premium** series of handlabelers:

Drop-in loading

fast and simple

With the **contact** transport system, changing the label roll is child's play. A patent solution for easy handling.

Label transport

accurate and precise

Pre-punched transport cuts in the backing paper ensure precision label feed to achieve a consistent print image.

Change of ink-roll

clean and easy

Easy insertion and removal of the ink-roll means no more dirty fingers.

Ergonomic design

slip-resistant and comfortable

Soft-touch handle for a snug hold.

Full-cover housing

label-roll protected inside

Sturdy and impact-resistant one-piece plastic housing - label roll inside protected against damp and dirt. The label roll is visible through a transparent panel.

Optional large bold print

promotionally effective

Extra-large characters - 8.5 mm in size - boost sales and highlight promotions.

Optional cliché-slide

for additional variable information

Easy to insert or remove for marking labels with different or additional product information.

Effortless labelling

for effective working

Very little effort required, short operating path, optimised weight.

## Cliché slides

Additional product information with the use of variable cliché supports (cliché slides). Possibilities include, for example, employee names or product listings such as fruits, vegetables, nuts, mushrooms, beverages or other products also texts such as special offers.

Whenever your labels need to be printed with variable additional information, you can add individual information to the usual print image of the labeler by using a text-slider (cliché slide). It can be changed by easy and fast operation.

The positions for the texts and possible print sizes onto the labels are shown below.

Labels	label format	labeler type <i>premium</i>
	18 x 11 rectangular	one-line 6.18 to 7.18
	22 x 12 wavy edge	one-line 5.22 to 8.22
	25 x 12 wavy edge	one-line 5.25 to 10.25
	26 x 12 wavy edge	one-line 5.26 to 10.26
	25 x 16 rectangular or wavy edge 26 x 16 rectangular or wavy edge	one-line 5.16 to 10.16 26.16-5 to 26.16-10

## Word bands

We assemble one-line and two-line print heads with word bands for manual labelers for label sizes:

22 x 12 mm	25 x 12 mm
26 x 12 mm	25/26 x 16 mm
29 x 28 mm	32 x 19 mm
37 x 19 mm	37 x 28 mm

The height of the characters is 3,4 mm resp. 4,4 mm for standardized texts.

22 x 12 mm

25 x 12 mm

26 x 12 mm

26 x 16 mm

32 x 19 mm

37 x 19 mm

29 x 28 mm

37 x 28 mm

Word bands may be customized according to the customer's request with up to 13 words per print head line.

## Label sizes and standard shapes

Special formats are possible.  
We are happy to advise you.

W = wavy edge  
 R = rectangular  
 RW = rectangular format on wavy edge baking paper  
 SW = contact wavy edge

## Perforations and security cuts

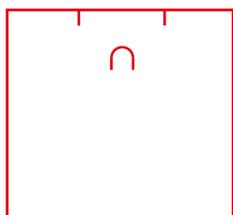

To ensure that labels cannot be removed undamaged, contact produces them with **security cuts, super-safe cuts and zig-zag cut**.

The removal of the labels is thus substantially prevented and manipulation by relabelling prevented.

**Hole punches** serve transport systems in manual labelers, but also cardboard or plastic hangtags for hanging with threads.

Labels stamped with **tension relief cuts** adhere better, especially on curved or uneven surfaces.

Perforations allow a separation of the labels e.g. when after the sale the customer logo and the price should not be visible at the same time.
